

Just One Norfolk Neglect Toolkit

Just One Norfolk hosts the Neglect Toolkit for all practitioners across agencies (including Children's Services), providing a range of information, guidance, and resources to support practice.

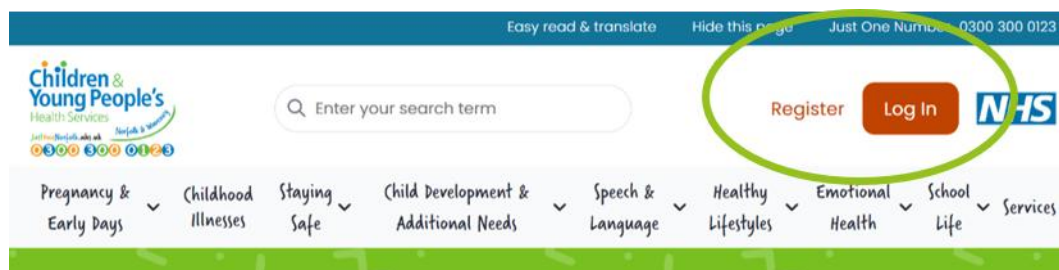

Examples of the tools available:

- Norfolk Graded Care Profile Grading Tool, Score Sheet and Guidance
- Self-Neglect and Hoarding Practitioner Guide
- Children with Disabilities/Completed Health Needs Guidance
- Parents with Learning Difficulties Toolkit

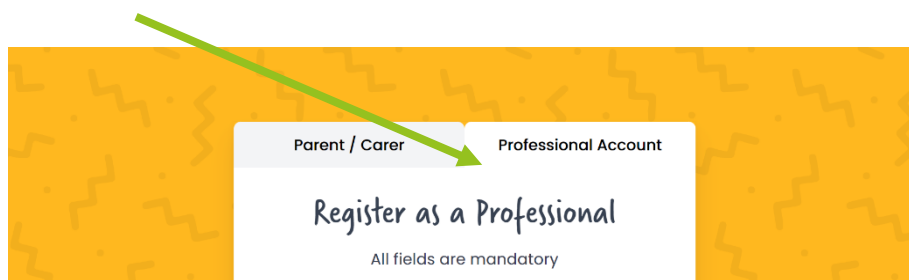

The Norfolk Graded Care Profile Tool should be used collaboratively with families, their networks and partner agencies when concerns about neglect are present. The tool promotes meaningful conversations about specific areas of care, supporting a shared understanding of strengths, worries and the impact on children, while helping to identify and plan the changes needed to improve outcomes.

In addition, there are links to further information about Neglect Champions, research and data for those who would like to know more about the Norfolk picture of neglect.
